Qualifications

Expertise and Research Interests

I am the Administrator of Southern African Alternative Energy Association (SAAEA)
We advocate policy development on behalf of our members at decision making government level. We also promote understanding of the industry and its potential through tools such as industry events, forums, conferences, newsletters and publications, our objective is to provide borderless access to the information that can affect today's clean energy industries as much as tomorrow's world.

Other Interests

We are currently doing research for a Dream/Eco Farm in South Africa.
